Thankful Turkey Fully Assembled

Each day, have each person in your family write or say what they're thankful for and tape it to the turkey. Do this every day until Thanksgiving and see all the things you're thankful for on Thanksgiving Day. Try not to repeat anything!

You can use the template to trace and cut out on colored paper, or just color the white printer paper the colors you want. Totally up to you! Here's what it looks like when you cut out the colored paper with the template. Happy Thanksgiving!
